

ROLES AND RESPONSIBILITIES

DEVELOPMENT ENGINEER

REVISION HISTORY

Revision No./Version No.	Date	Prepared by	Approved by	Details of Change
1.0	06/07/2021	Prachi Naik (Asst. Manager IT)	Anant Sham Yende (CTO)	
2.0	26/07/2024	Prachi Naik (Asst. Manager IT)	Anant Sham Yende (CTO)	Under responsibilities addition of tasks which are followed during new project execution like preparation of documentation of technical solution, additions made in training and certifications.

PROFILE DETAILS

DESIGNATION - TSE / SE/ SD

DEPARTMENT / VERTICAL -
Software/Coding

REPORTING AUTHORITY - Technical Lead

ROLE: TSE / SE/ SD

MINIMUM QUALIFICATION - BCA,MCA / B.E / B.Tech / M.E / M.Tech in
Computer Science / Computer Engineering / Information
Technology

MINIMUM EXPERIENCE - 0-5 Years

JOB OBJECTIVES

Develop quality code adhering to organizational standards within pre-defined time and carry out unit tests on the developed code.

ROLES AND RESPONSIBILITIES

DEVELOPMENT ENGINEER

RESPONSIBILITIES

1. Thoroughly understand the requirements to be coded (by reading and understanding FRS through the sensitization, kick off meeting) & timelines of delivery as per "Project Plan".
2. Going through the complete requirements and understanding the complete project background.
3. Assist TL in preparing sections applicable from technical solution document.
4. Develop the given form/code as per the coding standards and within allocated time frame. Write well-designed, testable code as per the approved screen layouts, workflow & constraints.
5. Ensure the form designs are approved from TL.
6. To ensure the testing scenarios submitted by the testing team are checked (this will be referred as Unit testing) before the code is moved to testing environment.
7. Unit testing confirmation checklist should be filled & submitted to TL.
8. In case any production issues are received ensure the fixture of root cause towards same is done. Ensuring Production Issue Root Cause Fixture tickets are created towards the same.
9. Carry out the peer review of code as per "Peer Review SOP" and document the bugs and fix all the bugs/errors identified by the peer review and report.
10. Attend following review meetings.
 - a) Issue Resolution Meet: As per "Issue Resolution Meet SOP".
 - b) Detail Work Review Meet : As per "Detail Work Review Meet SOP".
 - c) Stand-up Meet : As per "Stand-Up Meet Review SOP".
 - d) Requirement Briefing Meet: As per "Requirement Briefing Meet SOP".
11. Ensuring development tasks are entered precisely as per the details given by TL.
12. Ensure logging of time & efforts in GELJIRA on correct project.
13. Ensure proper code commit in GITLAB.
14. Maintain Requirement Traceability Matrix (RTM) as per CMMI standards.

ROLES AND RESPONSIBILITIES

DEVELOPMENT ENGINEER

15. Ensuring deployment of code on test environment whenever needed.
16. Any other Job/Role/ Responsibility at any location given by the management from time to time
17. Keep updated into technology trends and be well versed with it.
18. Carry out self-appraisal as per appraisal schedule.
19. At least learn one new coding language every year.
20. Ensuring call's from all TL's/PM's/OM's/CTO's are received and incase of any reason if the call is missed ensure callback is given as soon as possible.

TRAINING REQUIREMENT

Yearly minimum 64 hours of online/in person training in areas as identified by technical team & as per yearly training calendar.
