14	Sample Individual Report	9
15	Individual report for awaiting payment.	10
16	Individual report with payment details section	11
17	Detail/Summary Report	12
18	Certificate	13
19	Payment Receipt	14

1. Report development prerequisites

- 1.1 Technical Document should be prepared after sensitization meet which will include all the reports which will be prepared towards the project along with all details.
- 1.2. Every report designed should include author name, created date, description, report updated date and description (if report is modified then) mentioned clearly.
- 1.3. Any deviation from usage of standards needs to be documented in technical document to be approved by the System Architect/CTO.

2. Report selection/search criteria: The screen from which the reports are searched/printed.

- 2.1. The report orientation, page size and output formats to be clearly mentioned on the report search page.
- 2.2. When any filter/selection criteria applied on search of report, ensure that same to be printed on the report in case of detailed or MIS report.
- 2.3. Any specific font if used in the report which need to be available for viewing the report.
- 2.4. Any specific document viewer applicable to view the report. E.g. Acrobat Reader 5.0 or higher required for viewing PDF documents.

3. Types of report

3.1. Individual Report: Represents single entry record and all relevant information.

Eg: Application report, Certificate/Permit/NOC, Payment Receipt, Inspection Report etc. **Refer Fig. 1, 2, 3, 6**

3.2. Detail/Summary Report: Represents detailed ordered list of records.

Each of the Detail/Summary report should compulsorily consists of following:

- a. Ensure point 2.2 and 6.5 of standards is followed for detail/summary reports.
- b. Serial number should properly mentioned for each record, serial no should be reset on change of each group.
- c. Table header and group header should repeat on each page.
- d. Table header should have background color as light Grey.

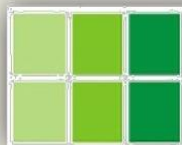

Eg: Cash Collection Summary Report, List of application received, List of certificates issued etc.

Refer Fig. 4

3.3. MIS Report: Represents Crosstab Reports or Pivot Report depicting count or aggregate

functions. Each of the MIS Report should compulsorily consists of following:

- a. Ensure point 2.2 and 6.5 of standards is followed for MIS reports.
- b. The counts displayed on a cross tab/MIS report/pivot should have hyperlink to open detailed list report and in case of '0' (zero) it should display '-' and should not be clickable.

c. The detail report must open in a new tab.

Eg: Taluka wise applications received count, Gender-Age grouping cohorts etc.

4. Output formats

Reports can be exported to following formats:

4.1. PDF: Individual report, Detail/Summary Report, MIS Report.

4.2. Excel(spreadsheet): Detail Report/Summary Report, MIS Report.

4.3. Doc or Image: As per the client requirement.

4.4. HTML: As per the client requirement.

- All reports should be exported in PDF format, Detail/Summary or MIS report can be also exported in excel format or as per the requirement specified by the client.

5. Report page size

Page Size	Page orientation	Margin
A4/Letter	Potrait	Top:15px; Bottom:15px; Left:56px; Right:28px
Legal	Potrait	Top:15px; Bottom:15px; Left:56px; Right:28px
A5	Potrait	Top:15px; Bottom:15px; Left:56px; Right:28px
POS Receipt(50mm)	Potrait	NA
A3	Potrait	Top:15px; Bottom:15px; Left:56px; Right:28px

- Landscape orientation to be used only when unable to fit columns or on client request.

6. Header section

This section should consists of following:

6.1. Logo of Department: Not stretched or shrink, Not very big or small, File size should be less than 10kb.

6.2. Department Name/Client Name:

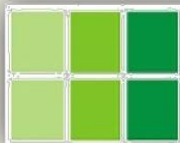

6.3. Office Address:

a) Can be head office address or processing office address or as per the requirement of the client.

b) Address should be fetched from the database not to be hard coded.

6.4. Office contact: phone no, email id, fax, website etc.

6.5. For Detail/Summary Report, MIS Report parameters on which report is generated should be mentioned. Eg: Headwise Cash Collection From 01-Jan-2023 to 01-May-2023 for Residence Certificate Service.

**7. Footer section**

7.1. Page number and number of

pages E.g: Page no 3 of 5 pages.

7.2. Printed on date and time

E.g: Printed on 31-Mar-2023 at 10:30 AM.

8. Font specification

Department Name	Tahoma	13	✓			Center	
Office Address	Tahoma	10				Center	
Office No, Fax, Email, Website	Tahoma	10				Left	
Page Header	Tahoma	13	✓			Center	
Section Header	Tahoma	12	✓			Left	✓
Group Header	Tahoma	11	✓			Center	
Labels	Tahoma	11				Left	
Text Values	Tahoma	11				Left, Justify, To p	
Summary	Tahoma	11				Left	
Note	Tahoma	10		✓		Left	✓
Amount/Date/Contact	Tahoma	11				Right	
Print Date/Time	Tahoma	9				Left	
Page no	Tahoma	9				Right	
Date	Tahoma	10				Center	
Contact no	Tahoma	10				Left	
Paragraphs	Tahoma	10				Left, Justified	

9. File name structure

rpt<Projectname> <service> <type_report>.<extension>

E.g.: Jasper Report: rptTCPZonningAppInInd.jrxml

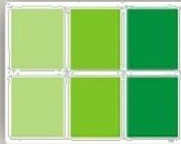

Crystal Report: rptGELTMEmpProfileInd.rpt

10. Line spacing

10.1. Jasper Report: 1_2_2

10.2. Crystal Report: Multiple

- There should be uniform line spacing in all paragraphs.

11. Watermarks

- 11.1. Watermark to be added to the report as per the client requirement.
- 11.2. The Watermark text is usually used to mention confidential or any other specific objective.
- 11.3. By default all the reports should have text "DUMMY" as watermark for test environment reports.

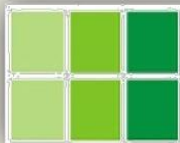

12. General common reports standards to be followed:

- 12.1. Avoid unnecessary empty space or lines.
 - 12.2. Data Should not be cropped.
 - 12.3. Text Alignment should be justified for paragraphs.
 - 12.4. Zero, null value and default date should be shown as "-". However, please note when handling sub total, grand total, page total '0' should be shown as '0' not '-'.
 - 12.5. Static text fields should not be used.
 - 12.6. Sections of data should not be split into parts rather should be shown together.
 - 12.7. Ensure amount in words are in Indian notations .
 - 12.8. Avoid unnecessary capital letters.
 - 12.9. Whenever images are fetched from database to display on report following properties should be set to the image in Jasper Reports:
Class type:
`java.io.InputStreamUnder`
`properties`
On Error type: Icon
- If any report consists of personal information as per Data Protection Act must be approved by System Architect/CTO.

13. Additional points to be considered in Individual Report

13.1 For Application Reports

- a) Declaration if available on application form, payment details and list of documents should be printed.
- b) Application date and acknowledgement no should be compulsorily displayed on the report.
- c) Acknowledgement no and date should be displayed on each page on top.
- d) Logo, office name and address, contact details to be mentioned.
- e) Fields fetched from database should be displayed in bold in paragraphs and declaration.
- f) If payment is not done and prepayment is applicable to application then payment section should

show payment pending also acknowledgement no should be shown in GREY color and PENDING PAYMENT status in RED color with uppercase and bold.

Eg. Refer Fig. 1, 2, 3

13.2. For Certificate/NOC/Order/Licence Report

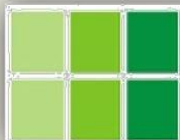

- a) Any certificate generated which will be digitally signed/e-signed must have the standard text about the document being digitally signed and can be verified online with URL and should be displayed in the footer of the report. (e.g. This document is computer generated and does not require any physical signature).
- b) In Certificate ensure that the digitally signed stamp doesn't overlap on the content of the report.
- c) In Certificate if possible, a QR code for hyperlink to verification page with auto fill to be implemented.
- d) In Certificate if esign is being done, on every page ensure that the relevant section is not overlapping with signature.
- e) The certificate signing authority, office, header etc should not be hard coded need to be fetched from database.
- f) If certificate is going beyond one page subsequent part should clearly mention certificate no, issue date, page number and number of pages.
- g) Certificate no./ Licence no./ Permit no./ NOC no./ Order no. and issue date should be displayed on each page on top of report.

Eg. Refer fig 5

13.3. For Payment Receipts

- a) Amounts to be displayed in Indian currency format comma specification i.e. 2,223.00
- b) Rupee symbol or short form currency sign Rs.
E.g. Rs. 23,25,000.00 OR Rs. 23,25,000/-.
E.g. Rs. 5,00,000/- should be written as "Rupees Five Lakh only" instead of "Rupees Five Hundred Thousand only".
- c) Transaction id and Receipt print date should be printed on receipt.
- d) The receipt should show breakup of amount if collected under different heads.
- e) If GST is being collected CGST, SGST or IGST wherever applicable should be applied and the % rate of GST also to be shown along with GSTN number.
- f) Any rounding of amount is done the same should be shown on the receipt.
