

STANDARD OPERATING PROCEDURE

FOR CREATING AND REVIEWING REPORTS

REVISION HISTORY

Revision No./Version No.	Date	Prepared By	Approved By	Details of Change
1.1	01-July-2025	Anjusha Gad (Software Developer)	Mayur Pednekar (Manager IT)	Separate SOP of Report creation and Reviewing reports are discarded and merged as one.

OBJECTIVE

This document provides the standard operating procedures (SOP) for reviewing reports within the organization to ensure report designed by team meets the organization standards and requirement set by the client.

PARTICIPANTS

Report Developer: Will develop the reports as per the standards and requirement provided by Project Manager(PM).

Report Vertical Lead(VL): Will review the reports to ensure reports designed by report developer is as per standards and requirement provided by Project Manager(PM).

PROCEDURE

1. Reports team will attend sensitization meet where BA and PM will explain the project flow and reports to be designed in particular project.
2. TL/Reports VL will create the ticket in GEL JIRA towards reports to be developed.
3. Report VL will brief the Report Developer on reports requirements as specified by the TL also share necessary report format details.
4. If the report format is not provided and only the required fields are specified, the Report VL will be responsible for designing the report and submitting it to the PM for approval through a ticket in GEL JIRA.

5. Report VL will raise ticket to database VL for the report query to be provided.
6. Report Developer will design the report as per the report format attached in ticket and will attach the designed report in assigned ticket and will mark it to Report VL for design review.
7. Report VL will check the report designed by the report team is per the client requirement and standard format.
8. If any issues are noticed, the same issues will be marked back to developer through GELJIRA ticket.
9. Report Developer will do the required changes and will send designed report to Report VL for approval.
10. Report VL will re verify or check the report design for any compliance to standards and requirements.
11. Once approved by Report VL, Report Developer will integrate the Stored Procedure and test the report.
12. Report Developer will generate the report for 2-3 different cases and submit to Report VL for review.
13. Report VL will check if data is displayed correctly and in proper format in the report.
14. The Report VL will check if there is any trimming or overlapping of data, any inconsistency in date format, alignment.
15. The report final output will be attached towards the Report Development ticket for future reference.
16. If report is approved, merge request will be sent to TL by max T + 1 day (T: date on which report is approved).
